

Are you a reliable, proactive team player looking for actuarial challenges in an international environment? Would you like to be listened to and get full support in your personal and professional development? If yes, then join us on our exciting journey and become part of our team!

UNIQA offers you the opportunity to join the Actuarial Partnership Program which is an international team of highly skilled experts working on the full scope of actuarial activities within UNIQA. You will mainly contribute to the Group-wide implementation of IFRS 17 by using the actuarial software Prophet, and to supporting our subsidiaries in Austria and in the CEE region on life insurance reserving matters. You can look forward to joining a team consisting of both experienced and dynamic experts as well as strong support from our Headquarters in Vienna.

For our group-wide projects and the growth of our team, we are looking for an ambitious and service-oriented

## Senior Life actuary

You can expect a developed on-the-job training program within the Group and all affiliated companies, with focus on different actuarial practice areas. We are offering personal development within the years to come within UNIQA Group.

### Your Tasks and Responsibilities

- Enhancing actuarial models with a focus on projection tools (emphasis: IFRS 17)
- Producing and validating IFRS 17 cash flows for the Austrian Life business in Prophet
- Participating in the IFRS 17 dry runs and impact assessments for the UNIQA life insurance subsidiaries
- Collaborating with other workstreams and Business Units involved in the IFRS 17 project
- Supporting life insurance reserving calculations in UNIQA's subsidiaries (Solvency II, Embedded Value, IFRS 4, actuarial reporting)
- Contributing to Prophet implementations for the models in the UNIQA subsidiaries
- Developing IFRS 17 templates for roll-out to UNIQA's subsidiaries, and maintaining existing Solvency II and Embedded Value templates for the Group

### Personality requirements and skills

- Actuarial education (actuarial science, mathematics or statistics)
- 3 - 5 years of experience as a Life actuary
- Proficiency in Prophet (deterministic and/or ALS)
- First exposure to IFRS 17
- Experience with Solvency II and Embedded Value calculations
- Proactive and reliable team player with developed problem-solving skills
- Ability to communicate with all levels of the organization
- Independent, customer-oriented and self-reliant working style
- Proficient knowledge of MS Office, especially Excel; VBA programming is a plus
- Willingness to travelling and remote working

Advantageous skills:

- o Expertise in IFRS 17
- o German language
