- Producing high quality model validation reports, with a particular focus on model design or use limitations and identification of key drivers of model results
- Influencing key stakeholders to solve problems inherently arising during the validation processes

### What we're looking for?

- A minimum of 6 years working experience in a quantitative environment in Risk or Finance
- Deep understanding of the theory and practice of statistical methods
- Significant coding experience in R or similar languages
- Effective written and oral communication skills, including the ability to express concisely technical concepts to senior management and non-expert audience
- Proven drafting skills
- Self-motivation and the ability to drive work forward

### What is a benefit for others is a standard for us:

- Contract of employment
- Private medical care
- Cafeteria system of benefits

### In Aviva, we provide:

- Possibility of remote work
- Flexible start-up times
- Additional parent privileges
- Group insurance combined with a capital fund
- Work in a good location (Metro Dworzec Gdański)
- Insurance discounts
- Wellbeing programs
- Remote medical consultations
- Access to e-learning platforms
- No official dress code
- A work environment that supports diversity
